

# COMMITTEE PERSON OF THE WEEK: KEITH KAUFFMAN

**When did you become acquainted with the Republican Committee, and why?** Probably about 15 years ago when I was recruited to serve as a Judge of Elections by my local committeeman.

**What aspects of your membership with the Republican Committee do you enjoy?** I enjoy the opportunity to better get to know the local candidates for office and help my constituents make an informed decision about those they elect to office.

**What values do you believe are essential to the Republican Party, and how do those values affect your views about this upcoming presidential election?** The belief in the authority of the constitution. The belief that all men are equal under the law. The belief that those in government only have the power to act

where we the people, through our elected legislature, have given them power to act. The understanding that honesty and integrity are essential to public service. Those most prominent within the Democratic party have demonstrated again and again their disdain for these values. Look at their supreme court choices. If the constitution is a living document that the supreme court can rewrite at will, then it is worthless for protecting your liberty. If five supreme court justices can find anything and everything "unconstitutional" then we have no representation in the establishment of law. The Democrats have now nominated for president a woman who has demonstrated to any objective observer that she is corrupt. A woman who is a proven chronic liar. A woman who has demonstrated repeatedly that she believes she is above the law. There is no good that can come from making that woman president.

**How long have you lived in Lancaster County, and what characteristics of Lancaster do you appreciate and admire?** I have lived my whole 49 years of life in Lancaster County and my family has lived here since about 1717. I appreciate that there are still many in Lancaster Co. that understand and believe in values that made America great.

**What is your current occupation, and what does it include?** I am a degreed engineer and I am currently working on the implementation of my company's regulator required cyber security plan.

**What activities do you enjoy participating in during your free time?** Home and yard maintenance or whatever my wife and children want to do.

**Is there anything else that you would like people to know about you?** I always hold the well being of the citizens at large above that of the Republican Party or those who are members of it.
